IEEE IAS Electrical Safety, Technical and Mega Projects Workshop

November 19-21, 2008
Mayfield Inn, Edmonton, Alberta, Canada
www.ieee.org/estmp

The IEEE IAS ESTMP Workshop provides a forum for exchanging and advancing industry knowledge in the areas of electrical safety, engineering design, system reliability and the implementation and execution of Mega Projects. The Workshop focus will be to share innovative concepts, successes as well as lessons learned in the areas of: 1) advancing state of the art knowledge and best practices, 2) stimulating innovation in creating the next generation of technology and 3) design and implementation of Mega Projects.

Call for Presentations

Consistent with past workshops, presentations will be a large part of this workshop. Key dates for presentation submissions are as follows:
Notice of intent to present – February 15, 2008
Abstract of presentation – March 15, 2008
Draft Presentation – June 30, 2008
Final Presentation print and CD ready – October 1, 2008
For additional details, see the Call for Presentations section on the website
www.ieee.org/estmp

Panel Discussions

In addition to the above presentations, 3 panel discussions are planned as part of the workshop related to the following topic areas:

1. Owners Implementation of Safety Programs (including CSA Z462)
2. Mega Projects Technical Step-outs, Successes & Failures
3. Equipment Approaches to Arc Flash Hazard Reduction

This forum will include brief presentations followed by panel discussions. Individuals or companies who express interest in participating in these discussions are asked to submit abstracts for a 15 to 20 minute presentation related to one of the above panel discussion topics. The intent is to provide a cross section view of the topic to the audience which will serve as the basis for further interactive discussion. Please contact our technical committee chair, Ron Derworiz, for further information.

Edmonton, Nov. 19-21, 2008

Tutorial Proposal

The workshop committee will consider conducting a tutorial on a subject consistent with the mission of the ESTMP conference. This tutorial would be intended to provide workshop attendees with an opportunity to expand their knowledge on the subjects of Safety, Technical, and Mega Projects. Any individual, group or company that is interested in presenting a tutorial is encouraged to fill out the form below and submit it to the ESTMP Technical Subcommittee by February 15, 2008. Tutorial proposals will be reviewed by the ESTMP committee with final selection and notification of authors by no later than March 15, 2008.

Please submit proposals or requests for further information using the format below as a guideline for required information to our technical chair, Ron Derworiz.
ron.derworiz@shell.com, (780) 997-6546

Abstracts should be kept to 200 words or less
1. Title of Tutorial: _____

2. Abstract:_____
_____
_____

3. Suggested Tutorial Lead Instructor:
        Name: _____
        Title: _____
        Company: _____
        Street Address: _____
        City/State/Zip Code: _____
        Telephone: _____
        E-mail: _____

Sponsorship

There are opportunities to sponsor such items as breakfasts, coffee breaks, lunch, presenters gifts, audio visual aids, printing of the workshop material, CDs, hospitality suites, social events, etc. as well as participate in the exhibition. For further information, contact our sponsorship chair, Wink Winkelmann.
wink.winkelmann@ca.schneider-electric.com (780) 447-6615

Exhibition

Exhibitions are held on Wednesday and Thursday afternoons following the technical sessions. Vendors and suppliers are invited to showcase their products & services. For further information, contact our exhibition chair, Ken Martin.
kmartin@brodwell.com, (403) 253-7702 ext. 224

Looking forward to seeing you at the 2008 IEEE Electrical Safety, Technical and Mega Projects Workshop
