

A Past Section Chair & AIEEE member.

In November 2013 the section held a Past Chair recognition as our annual meeting. A very active (wheelchair) past president 1977 with questions for our guest speaker was E.P. (Ted) Winch.

Ted became a “parting Guest” on Sept. 2nd last. Two LSM’s from the Section joined with other friends and Ted’s daughter in remembering Ted, who was a member of AIEE ,.a P.Eng., and active over the years including the CSA Transformer Standards Committee C88 some 55 year ago, and a 2nd., world war Navy veteran.

Dave Hepburn was on the same CSA committee and like myself as a past chair, Ted joined AIEE before the formation of IEEE Canada. Our Section is grateful for knowing and having such dedicated members.
